

# Surprisingly comfortable & Ergonomic

## Superior comfort cabin

New Z series is focusing on working environment and operator's comfort. The new cabin designed with no blind spot. It is a comfortable and safe work place for the operator.

The Cabin's 360 degrees crystal view minimums the risk of damage to operator and goods. Wide range of optional equipments such as heater and radio in the interior lining of the overhead guard to meet all your needs. Quality components and insulated engine compartment, as well as the construction itself, ensure a low noise and vibration level.

## Superior comfort cabin

- Operator comfort
- Vibration-free
- Functional arrangement
- Low noise level
- Ergonomic operation

Optional advanced hydraulics mini-lever and joystick with armrest are all new design give more comfort to the operator. Radio and heater also design for different needs.

Mini-levers Radio

a=X+R+b+a  
b=Laenge der Ladung  
a=Freiraum (200mm)

# Tailift Eco-Z series is complete new design with innovation

The elegance of our Diesel and Gas powered forklift trucks conceals its excellent power and lasting durability. This series are produce from 2000kg to 3500kg and meet the quality, performance and working efficiency required at any worksite and moreover compact body design and ergonomic functions. All of those are characteristics of a Tailift forklift truck.

### • Multifunctional LCD panel

This multifunctional instrument panel is in the central position. Large and easy to read various functions and provides the operator with the maintenance information and suggestions.

### • Internal hidden tilt cylinder

Internal tilt cylinder avoids and reduces scrape possibility. Enlarge access space and given better appearance.

### • Non-slip entry step

Large foot space and non-slip make the operator get on and get off the vehicle more easily.

### • Interlock parking brake

The parking brake has safety protection switch, it is necessary to release the parking brake in order to avoid the touch accident and to ensure the safety.

### • High mounted combination rear lights

Integral OHG light include side, reverse, rear lights, brake and direction indicators.

### • Large front lights

Integral head light and side lights.

### • Hydraulic control levers

The mechanical-hydraulic control lever disposed at the front of the panel. The ergonomic headlines designed to help reduce the driver's arm fatigue.

### • Horizontal brakes system

Extended brake pedal arm and reduce pedal resistance design to achieve the purpose of least resistance.

### • Adjustable steering wheel column

The easy-handling steering wheel column with tilt adjustment helps to provide the ideal operating position and improve performance.

### • Long operator assist grips

have been designed to meet the needs of varying operator sizes.

### • Comfortable seat

- Ergonomic sharp design and adjustable backrest
- Adjustable forward and reverse,
- Retractable safety belt
- Document bag

Excellent top view

Excellent rear view

Excellent front view

Excellent down view

## Clear view mast & round bracket design

### High performance low fuel consumption engines

The strong but low emission engine will satisfy the operators in any given circumstance, time and time again.

New Z series using high performance and low fuel consumption engines include Isuzu, Yanmar and Nissan engines. All engines meet latest emission regulations.

### Integral heavy duty chassis

A strong no-bolt integral heavy duty chassis gives the driver 20% more protection from falling loads, suite for all kind working surface.

### Tailift Automatic transmission

MD series transmission developed by Taiwan Tailift with main features

- Fast start and accelerating speed
- Forward and backward quick response and smoothly
- Using electronic gear shifting to fast switching gear

### Easy maintenance

- Engine hood using ABS environmental protection material. Features include heat-resistant, non-slip, scratch-resistant and the structure can withstand 450KG heavy weight.
- The new hood open angle has been enlarged to 80 degree, enlarge maintenance space and make maintain and service the truck much easier.
- Engine hood fix button easily opened and fixed, strong and durable
- The detachable foot pedal without bolts can be easily moved away without the tools.
- Compact fuse box for easy and quick inspection
- Easy change air cleaner

## EASY AND SMOOTH TURNING

Small steering wheel

+

New rear axle

Smaller 300mm steering wheel easy to operate and reduce operator's arm and shoulder's workload.

The new axle provides wider steering angles to 85 degree and reduces to a smaller turning radius.

## SPACIOUS OPERATION SPACE

380mm &  
30% wider

Accelerate/Brake/Inching pedal all configurations with ergonomic design. 380mm wide-open foot space provides the comfortable foot activity space. It is about 30% wider than 7 series.

The enlarged space give operator great comfortable and less stress, make the operator get on or get off the vehicle more easily.

## Electric F/R control lever

Integral forward/reverse & direction lever offers easy shifting between forward and reverse while keeping both hands on the wheel. It is easy to reach and fast to change direction.
